The Software Developer will work with a small team designing web and winforms applications using C# .NET and MS SQL. The Software Developer will help support and enhance existing eCommerce website as well as other business systems while assist in identifying, evaluating, and selecting software.

Primary Job Duties:

- Collaborating with development team and other IT staff to set specifications for new applications.
- Developing software solutions to meet company needs.
- Creating and implementing the source code of new applications.
- Testing source code and debugging code.
- Evaluating existing applications and performing updates and modifications.

Skills/ Experience:

- C# .Net Programming Experience
- MVC Web Design
- Angular Experience
- Web Service / Web API's Experience
- MS SQL Querying and Stored Procedures Experience
- Javascript (AJAX, etc.) Experience
- Insite eCommerce Experience
- JSON / XML Experience
- Other Web Frameworks Experience
- Excellent oral and written skills
- Ability to work effectively with changing priorities in a dynamic environment
- Detail-oriented with strong analytical and problem-solving skills
- Comfortable interfacing with a broad spectrum of users

Education Background:

- Bachelor's degree in Computer Science or other technical field
- 4+ years development experience
