TITLE	2023+ FORD SUPERDUTY HIGH BEAMS NOT DISABLING ON TRUCK							
REV	-			ISSUED	8/31/2023		REVISED	
AFFECTS	16071340 HEADLIGHT ADAPTER							
INFORMATION	<p>This is still being investigated by Ford. Some 2023 superduties do not have the high beam in the truck upfitter connector, so it cannot be disabled by the plow harness.</p> <p>The plow high beams work normally - but the truck high beams are not disabled.</p>							
INSTRUCTIONS	<p>Pending further information from Ford - use of plow high beams is not recommended in order to avoid potential glare from the rear of the plow. This TSB will be updated as soon as more information is available.</p>
